ANNUAL REPORT 2017

2017.1. GENERAL OVERVIEW

The major concern of the Council in 2017 has continued to be to secure COHEHRE as a stable but flexible organization which is able to grow and that contributes significantly to the realization of its international ambitions and profiles of its member institutions. The overall objective remains to reinforce COHEHRE as a dynamic platform for member institutions and potential partners. Whilst there is strong representation from northern mainland Europe, the organisation has been working to strengthen membership in Southern and Eastern Europe.

We continue to believe COHEHRE is an organization that

1. Stimulates networking of higher education institutions in health and social care across the European Community Countries (EC)
2. Has impact on its membership by influencing the international dimension sharing current and future best practice in teaching, learning and research
3. Empowers collegiality and maintains a learning community to which member institutions contribute academic personnel and ideas
4. Offers expertise for professional development of teachers and builds on the exchange of good practice
5. Widens the perspective on the European and other international dimensions of health and social care education
6. Provokes innovation by facilitating and developing student and staff exchange, providing new teaching and learning strategies and opportunities, establishing an intercultural exchange environment, and facilitating consultation and external advice
7. Fosters inter-professional cooperation by stimulating the development of educational models and methods, and exploring and bridging the borders of health care and social professions
8. Offers a platform for the development and co-production of collaborative European research projects.
9. Provides an environment for mutual sharing, support and development for strategic managers.

2017.2.2 Key issues addressed in 2017

COHEHRE has as its aims the development and the enhancement of the quality of Higher Education in Health, Rehabilitation and Social Care by means of international cooperation in the field of education, research and development. COHEHRE connects with (international) developments in higher education, with general developments in society and particularly with
the specific developments in health and social care provision. It focuses on multi-disciplinary and inter-disciplinary activities. Quality enhancement includes the sharing and development of best practices in education, including the link between education and research. The changes for 2018 and onwards will need to take account of the role the organization can play as the shape and size of the European Union (EU) changes and how the EU and neighboring countries are affected by political, financial and funding changes.

Specific areas of activity in 2017 included:

- Continuing to support and evaluate the revised structure and development of COHEHRE Academy
- Facilitating the development of the second and third branches of the Consortium namely COHEHRE Research and Strategic Management, mirroring the management structure of the Academy.

2017.4. SETÚBAL CONFERENCE EVALUATION

The annual conference 2017 was held on 5th - 7th April in Setúbal bringing together 146 staff members and 51 students. The conference theme was ‘Educational implications of globalization and global citizenship’, with four sub-theme areas: Addressing the humanitarian crisis, Educational development for globalization, Developing 21st century competences, Patient safety and risk management.

There were altogether 56 submitted abstracts in the categories of Research Studies, Practice Development & Innovative Projects or Workshops. In total there were 21 oral presentations and 4 workshops in 8 parallel sessions and 21 presented posters in the conference. From the next figure you can see the final composition of presentations in each category.
GENERAL IMPRESSION AND SATISFACTION OF THE CONFERENCE

Altogether 42 staff participants responded to the conference feedback questionnaire. The evaluation has been summarized below. When considering the general impressions on the conference, the responses were very positive. The quality of conference organization, the opportunity to make contacts for future collaborations in the field of work and the relevance of the conference for the work in education was highly valued. The intention to attend the next year’s conference and the worth of investment were also highly rated.
OVERALL SATISFACTION WITH THE CONFERENCE PROGRAMME

Most of the responded participants were satisfied or very satisfied with the overall program (89%). The lowest proportion of this segment (very satisfied and satisfied) concerned the strategic management session (71%), while the highest (96%) was for the Academy and the internalisation session. When considering the satisfaction with the keynote presentations, participants scored it with the second lowest evaluations (79%). However, the rate of non-responses was also expressive. The distribution of responses can be seen in the next figure.

IMPLICATIONS FOR FUTURE CONFERENCES

The Polytechnic Institute of Setúbal deserves tributes for hosting and organizing this high quality conference. The feedback received from the staff showed an overall satisfaction with the quality of the conference, organization, program and hospitality. Participants experienced that it was worth coming to this conference. Particularly, the conference succeeded in highlighting the core values of global citizenship and respect in education and practices of health and social care.

Suggestions were made for future conference topics such as health technology, internationalisation of the curriculum, interprofessional competences, hidden competences, interprofessional education.

This year’s evaluation showed again the importance of the annual conference as an event that provides opportunities for networking, meeting project partners and finding new collaborations for educational projects and research. Year after year this seems to be one of the most valuable aspects of the conference.
2017.5. COHEHRE ACADEMY

The COHEHRE Academy is an important part of the consortium which acts as a platform that initiates, supports and coordinates different activities between the members. It aims to enhance international, interdisciplinary and interprofessional cooperation in health and social work education programs. It supports professional development and capacity building within health and social work education among the member institutions.

2017.5.1 Background information of the COHEHRE Academy

The COHEHRE Academy (CA) is one of the activities within the COHEHRE consortium. The aim of the Academy is to enhance international, interdisciplinary, interprofessional cooperation and capacity building within health and social care education among the member institutions. It supports professional development and capacity building within health and social work education among the member institutions. The Academy acts as a platform that initiates, supports and coordinates different activities. It offers opportunities to create, stimulate and intensify networking of partner institutions and to develop joint initiatives. Activities of the CA have been announced to COHEHRE member institutions by e-mail, on the website and in the newsletter.

At the very beginning, COHEHRE Academy consisted of task force of four (4) persons, namely two Council members and two invited members. As the numbers of activities were increasing, the Council decided at the Annual Conference in Budapest 2015 to extend the amount of members of task force. Open invitation for joining task force of COHEHRE Academy was sent to member institutions and CA was searching for volunteers, who would be interested in working hard in order to develop and offer different COHEHRE Academy activities. Based on the decision made by the Council in September 2015, there are now two circles within the Academy: the Core Group consisting two Council members and 2-3 Academy members, and the Task Force.

The workshop aims to bring into focus human centred design by the help of the unique LABs of Oulu University of Applied Sciences. In an interdisciplinary innovation challenge, participants will learn development methods in practice.
about the benefits, challenges and possibilities of project based studies which bridge work-life and higher education.

**Ethics in Community based Student Projects: Exploring the possibility of a win-win situation**

**Time and venue**
November 2017
Amsterdam, The Netherlands

**Coordinating institution**
Amsterdam University of Applied Sciences

**General outline**
This capacity building workshop will provide the opportunity to explore and discuss concepts of community-based student projects, both in local and international settings. With trends in education focused on connecting students more to the communities around them during the studies, as well as providing international fieldwork experiences, it is important to consider the possible ethical impact of these community based projects.

When is the project equally beneficial for the students’ learning, as well as for the communities intending to benefit from their work? How do we as educators develop and evaluate these projects to attempt to achieve this win-win situation?

This seminar will explore this through unpacking the experiences and ethical and cultural dilemmas of three main stakeholders: students, educators and community hosts.

**Culture in Healing – Healing in Culture**

**Time and venue**
December 2017
Budapest, Hungary

**Coordinating institution**
Semmelweis University, Faculty of Health Sciences

**General outline**
The quality of the relation connecting the health worker to the patient is an important element of the healing process. The cultural distance separating the two often creates an invisible bias producing unnecessary tensions, compromising successful patient-professional cooperation.

Minorities and migrants are often cited as obvious examples of cultural otherness; it is less readily recognized that patients coming simply from different social contexts than that of the majority population might also pose problems to the medical system.

**ii. Mobility programmes for students**

Student programmes organized by the COHEHRE Academy or organized under support of the COHEHRE Academy.

The COHEHRE Research is a young part of COHEHRE. 2 new members have started in April 2017 as COHEHRE Research Council member i.e. Ester Goutan and Annemie Spooren.

The Research Council members had a meeting in September 2017 in Ghent during the General Council meeting. The former work of the COHEHRE Research was carried over by Lisa Koskinen and Celia Soares. Ms Soares was in charge of transferring their work on COHEHRE Research to the new members and they continued the process of establishing the COHEHRE Research branch.

The Research council members had 5 Skype meetings from September 2017 - December 2017 to shape the work of the COHEHRE Research branch.

The starting objective of COHEHRE Research was to compose a group of persons who wants to be involved in COHEHRE Research by identifying a Special Person of Contact (SPOC) for research at each COHEHRE member institution. An invitation letter to each institution was send and names of SPOCS were gathered and will be further elaborated in 2018.

**2017.7. COHEHRE STRATEGIC MANAGEMENT**

Strategic Managers have been regular attenders at the COHEHRE Annual Conference and have been active in supporting participation of academic staff and students in COHEHRE activities. In recent years they have participated as a group in a programme of events on one day of the Annual Conference designed to support their needs. Just as with COHEHRE Academy and COHEHRE Research it has become clear that the Strategic Managers need a more formalised approach from COHEHRE to assist them in their activities together within COHEHRE and at their home Academic Institutions. For this reason it was decided by the COHEHRE Council to form a third branch of activity – COHEHRE Strategic Management. The shape of the financial management of the consortium has been adjusted in order to support the development of all three areas of COHEHRE’s operation.

The aim of COHEHRE Strategic Management is to provide a dynamic and energised forum in which strategic managers are able to discuss and develop strategic partnership working, share issues affecting the financing and development of programmes of higher education and research. This group also facilitates the development of innovative ways of collaborative working in order to access sources of European and other international funding. Strategic support is offered to collaborative working between member institutions. Strategic Managers are able to meet at the annual conference and other events with facilitation from leaders in the field.

COHEHRE has tried and tested ways of working to support the Academy and Research areas of activity so a similar method has been applied to Strategic Management. A core group and a wider consultation group was established at the annual conference at ESS Setubal in 2017. There have been skype and face to face meetings which have coincided with Council meetings over the year. The Strategic Manager’s Day at the 2018 conference in Ghent has been planned by this core group. Further developments will be guided by the Core Group in partnership with the wider consultation group and the COHEHRE Council.

### 2017.13. AUDITORS REPORT

The result for the financial year 2017 was mainly influenced by the booking of an additional invoice for the conference that took place in Derby, United Kingdom in 2016. This invoice was therefore not included in the result of the financial year 2016, which means that the result of 2016 was much higher.
The cost for the expected invoice for the Setúbal conference in 2017, has been included in the result in the financial year 2017.

It can therefore be said that this negative result does not count as an effective loss. If this cost for Derby had been included in the 2016 results, 2017 would have had a positive result of around €6,500 and 2016 a more realistic result. The Consortium is still left with a healthy balance.

Even though the amount of members stay relatively the same each year, it was advised to draft a survey for the leaving members in order to know the reason of leaving COHEHRE.

2017.14. NOMINATING COMMITTEE

In the beginning of year 2017 the Nominating Committee of COHEHRE was looking for one candidate for the position of President, two candidates for the position of Council Member and two candidates for the position of Nominating Committee Member. A message was sent out to the member institutions in January, and by the deadline in March 2017, the Nominating Committee had received two nominations for the position of Council Member.

The General Assembly in Setúbal elected Ester Goutan Roura from UVic, Spain and Annemie Spooren from PXL University College, Belgium as new Council Members. Jennifer Lewis Smith was re-elected as President. Toini Harra and Sandra Tricas Sauras have been re-elected as Nominating Committee Members.

We are looking forward to 2018 as an exciting year with many new possibilities for the members to be actively engaged with COHEHRE activities.
