

COHEHRE is a non-profit organization with an exceptionally active network bringing together students and academic staff from member higher education institutions across Europe. We are committed to promoting, developing and supporting interprofessional learning, teaching and research as well as improving collaborative practice and enhancing strategic management.

COHEHRE enables opportunities for networking, sharing of information, best practice and experiences in the area of interprofessional education and learning in the fields of health, social care and rehabilitation.

Members of COHEHRE are Higher Education Institutions from all over Europe.

Join us

If you are interested in joining COHEHRE, there are four types of membership: trial membership, full membership, full membership for low income countries and associate membership. More information can be found on: www.coehre.com

Structure of the organisation

COHEHRE is a member-led organization consisting of health and social care institutions. It has a membership of deans and heads, teachers, professors, researchers and international coordinators who are dedicated to serving its membership.

COHEHRE is led by an elected council, which is chaired by a president.

Besides the general council member duties related to the organization and smooth running of the organization, each council member is responsible for a certain part of the organization:

Final authority rests with the General Assembly which meets once a year at the time of the annual conference.

Philosophy and goals

COHEHRE is a learning organisation preoccupied with issues regarding the interdisciplinary education and training of health and social care professionals across Europe.

COHEHRE aims to provide a forum for raising shared insights of every practitioner and educator within Europe at every level and in every situation. The philosophy is influenced and embodies ways of working which incorporate key themes from European and Global policy such as interprofessional working, curriculum development for compliance with EU Policy, education policy, health and social care policy and globalisation.

The aim of **COHEHRE Academy** is to facilitate international, interdisciplinary, interprofessional, innovative cooperation and capacity building amongst COHEHRE member organizations.

The COHEHRE Academy acts as a platform, which initiates, supports and coordinates activities. It offers opportunities to create, stimulate and intensify networking between partner institutions as well as to develop joint initiatives in interdisciplinary learning programmes for students and capacity building workshops for academic staff.

Research

The aim of **COHEHRE Research** is to play an active role in undertaking initiatives and acting as a platform that initiates, supports and coordinates different research activities among and in collaboration with the partner institutions.

COHEHRE Research creates an extra dimension and gives an added value to participation in the consortium. The initiatives are based on the needs of COHEHRE member institutions and their individual members.

The aim of **COHEHRE Strategic Management** is to provide a dynamic and energised forum in which strategic managers are able to discuss and develop strategic partnership working, share issues affecting the financing and development of programmes of higher education and research. This group also facilitates the development of innovative ways of collaborative working in order to access sources of European and other international funding. Strategic support is offered to collaborative working between member institutions. Strategic Managers are able to meet at the annual conference and other events with facilitation from leaders in the field.

Conference

The **Annual Conference** is organized each year by one of the member institutions. COHEHRE has an exceptionally active network. The conference has a range of parallel themes to meet the needs of students, academic staff, researchers and strategic managers. It is the ideal opportunity to meet colleagues from other Higher Education Institutions in order to share knowledge, engage in new projects and increase the level of internationalization of each member institution.

There is a strong will and effort to involve the students in the conference to create an academic credit bearing international and networking opportunity for them as well. A programme of activities for students runs parallel to the staff programme. It includes activities to promote a better knowledge and understanding of the host institution, its educational culture, its degree programmes and the local health and social care system. Strategic Managers and researchers required an area within the conference to meet and explore topics of interest and issues affecting their ways of working. The conference offers options to meet their needs.
